Friday 12th September 2025, 12pm

LOT 6

Welcome to the Palgrove sale!

The Power of Pedigree

We're excited to have you join us for the 41st Annual Palgrove Bull Sale here at Glen Wilga. It's always a big day on the calendar—not just because it's a chance to showcase some of our best genetics, but because it brings together the people, partnerships, and progress that continue to drive our business forward.

This sale is much more than just an auction. It's a 'shop front' window into the broader Palgrove program—our paddock bull supply, our commercial focus, and the breeding philosophy that underpins everything we do.

Every bull in this year's draft has been years in the making. From joining decisions made more than three years ago to the rigorous selection and development process, the result is a line-up of bulls with real consistency, strong structure, and the performance edge Palgrove is known for.

Charolais

We continue to believe the modern Charolais bull is one of the most underutilised genetic tools in Australian crossbreeding systems. Their ability to deliver kilograms, consistency and early turn-off—backed by our Paddock to Palate results and on-ground commercial data—sets them apart. On inspection of this year's draft we believe it will be clear of the inroads we have made for adding softness, fleshing, and finishing ability without compromising on carcase and yield traits.

This year's Charolais draft is one of our most exciting yet. It features standout sons by **Landmark** and our retained sire **Red Rock**, both of which continue to deliver impressive carcase traits, extra softness, and structural correctness. We're also proud to offer the first sons of **Palgrove Rockerfella**, our \$100,000 bull from the 2022 record-breaking sale. These sires represent the next generation of Charolais performance and profitability.

Ultrablack & Brangus

Our Ultrablack and Brangus program has grown in both scale and strength, now firmly established as a cornerstone of northern and southern herds alike. These bulls combine adaptability, fertility and feedlot performance—offering maternal strength in the paddock and terminal value on the hook.

This year's draft showcases a diverse range of sires, providing clear evidence of the depth and strength of our home-bred genetics. These aren't just Ultrablacks—they are the genuine article. Years of careful genetic selection have allowed us to deliver consistent, high-quality bulls in volume, without compromising on type or performance.

Some of the standouts in this offering are by our R-drop bulls **Palgrove Revolution**, **Royston** and **Ringleader** who sold in our 2022 record-breaking sale for \$70,000 and \$50,000 respectively, along with retained sires **Rafiki** and stalwarts **Quality Time** and **Quick Release**. Their sons continue to display the muscle pattern, structure, and consistency we strive for in this program.

We've maintained quality while expanding the program, and we're proud of the bulls on offer today. Their performance in commercial herds across the country continues to validate their role in the future of Australian beef production.

While a few things have changed in and around the Charolais stud, the Palgrove Annual Bull Sale remains the same at its core. You can expect the same focus on quality, the same trusted team behind the scenes, and the same commitment to delivering top-tier Charolais and Ultrablack bulls that are ready to perform in commercial herds across the country.

With 200 bulls presented, we encourage you to explore the catalogue, performance data and pedigrees. Our team is here to assist with selections and is always keen to hear how our bulls are performing in your program.

Thank you for your continued support—it means the world to our team. Please join us after the sale for dinner and drinks; it's a great way to celebrate another year of progress and catch up with fellow producers.

We look forward to seeing you on sale day.

Ben Noller, on behalf of the Palgrove Team

OUTSIDE AGENT REBATE:

The vendors agree to a 3% rebate to outside agents who attend the sale with, or buy on behalf of, their clients and settle within 7 days. 1% rebate to outside agents introducing approved buyers to the vendor prior to the sale and settling on their behalf within 7 days of the sale. (This clause will be strictly enforced by the vendor).

Inspection:

Cattle may be inspected any time prior to the sale by arrangement. If you can't make it on sale day, we encourage you to inspect the bulls at a time convenient to you and bid via phone or AuctionsPlus. Please discuss your bull requirements with our team, we enjoy being a part of the decision making process.

Sale Day Safety:

We pride ourselves on the excellent temperament of our bulls, however, there are risks associated with bull behaviour on sale day and it is our responsibility to keep you safe. If you wish to enter the pens please be aware that bulls may fight with each other or they can be playful. We cannot accept responsibility for your safety if you do not follow the instructions of our staff. If you are limited in your mobility or if you have children/ prams accompanying you, **please do not enter the sale pens.**

AuctionsPlus:

AuctionsPlus is an alternate bidding option if you can't attend the sale in person. However, it is only available to registered users. We recommend registering online as soon as possible - at least 24hrs prior to the sale.

Register at www.auctionsplus.com.au

Breeding Soundness:

All sale bulls offered for sale have passed a semen test by Veterinarians from Ced Wise ABS.

All bulls offered for sale have been examined by the stud's Veterinary consultant for structural and physical soundness to Australian Veterinary Association standards. A Bull Breeding Soundness Evaluation Certificate will be available.

Guarantee:

All stock are guaranteed breeders. Any claim against the breeding ability of an animal purchased should be made in writing and accompanied by a Veterinary Certificate within six months of the date of sale. In the event of a bull failing to breed, it may either be replaced with an animal of comparable value or credit to the full purchase price will be given at the following sale or on a private sale animal.

Health:

Palgrove maintains a J-Bas 7 status, so bulls are free to move to anywhere in Australia.

Sale bulls have been inoculated twice with 7-in-1; Pestigard, Vibrio and 3 Day Sickness along with a single dose of 3 germ tick blood.

Delivery:

We take personal interest in the efficient delivery of all stock after the sale. George & Fuhrmann and Nutrien will be handling the delivery of sale cattle.

We offer Freight Assistance to several major centres including Emerald, Roma, Inverell and Glen Innes. Please talk to Ben Noller M:0427 700 949 prior to the sale.

The Sale Bulls:

A bull's career begins rather than ends on sale day - so be cautious about comparing bull weights and fat scans between the various sales. Comparison of bulls in a contemporary group is a far more reliable indicator. It is in your best interests to purchase bulls that have had a moderate long term feed ration rather than one that has been 'pumped up' for sale day.

Palgrove Stud:

After decades of building one of the largest and most respected Charolais herds in the country, Palgrove has made the strategic decision to sell the stud to new ownership—ensuring its legacy continues under the new ownership of long-term employees Ben and Gemma Noller, in partnership with the Daley family of Western Queensland. This sale will mark the final offering of Charolais bulls under Palgrove ownership.

The move allows us to sharpen our focus on the continued growth and innovation of our Ultrablack program. Developed since 2009, our Ultrablacks are purpose-bred to meet the evolving needs of commercial beef producers—delivering market adaptability, hybrid vigour and consistent performance. Backed by data, discipline and a commitment to profitability, we're proud to be driving the next chapter of genetic progress with cattle that work where it counts—on the ground, in real herds, across Australia.

Our Approach:

Even though the scale of the registered herd has increased substantially since 1969, our breeding objectives haven't waivered. We aim to drive performance through our genetics to improve profitability and efficiency in beef production, while maintaining customer satisfaction.

Palgrove buyers expect the best from our cattle - whether it's one stud sire or a draft of 100 commercial bulls. Our job is to deliver cattle and service that is beyond our clients' expectations.

Palgrove Properties:

The Palgrove herd is run across a diversified group of properties in Queensland and New South Wales. This enables us to run our breeding herd and grow out our sale bulls under commercial conditions. Our breeding properties are located at Ben Lomond and Inverell, with our bull depot and Sale Complex at Drillham and Chinchilla, QLD. These properties allow us to provide our clients with a year round supply of cattle that are easily accessible at a number of locations.

Commercially Focused Genetics:

Since the early beginnings of the Palgrove stud, we have been using raw data and Breedplan to measure the genetic improvement in our cattle for the three main profit drivers:

- a) Fertility
- b) Growth and Weight Gain
- c) Carcase Merit

It's been a systematic selection process over 50 years with Palgrove possessing comprehensive EBV data.

We've always focused our breeding program on the commercial profit traits, but until now it was difficult to verify the value of Palgrove genetics - particularly for eating quality and the carcase \$ value that Palgrove genetics add.

Over the last few years, we've entered cattle in the Paddock to Palate competition which has enabled us to verify the profitability of Palgrove commercial progeny. Our cattle have risen to the top consistently with winning pens across weight gain, carcase and eating quality. We don't just make claims - we deliver value!

In this sale, there are three separate BREEDPLAN figures presented:

- a) Charolais Group Breedplan (June 2025)
- b) UltraSelect Breedplan (August 2025)
- c) Brangus Group Breedplan (July 2025)

Each breed runs a separate Breedplan evaluation. As the genetic base for each breed is different, only EBVs for animals within a particular breed can be directly compared.

Putting this in practical terms, a 600 day weight EBV of +41 on an Ultrablack or Brangus bull is not equivalent to a 600 day weight EBV of +41 on a Charolais bull.

Our Ultrablack bull EBV's are provided to us as registered animals on the Angus Multi Breed Register (MBR). Only pure Angus cattle are recored on HBR/APR registers.

When assessing cattle performance, it is essential to always compare 'apples' with 'apples'.

Charolais Group Breedplan Averages 2023 born calves

	BW	Milk	200	400	600	SS	EMA	Rump	IMF%	RBV	Dom\$	N'th\$

More info on the new UltraSelect EBV averages available before Lot 101.

Parent Verification Assurance:

PV - these lots have been DNA Parent Verified (both Sire & Dam)

SV - these lots have been DNA Sire Verified

DV - these lots have been DNA Dam Verified

DNA verification improves the integrity of the pedigree & EBV information that is displayed in this sale catalogue.

Please refer to Terms and Conditions of Sale at the back page of this Catalogue.

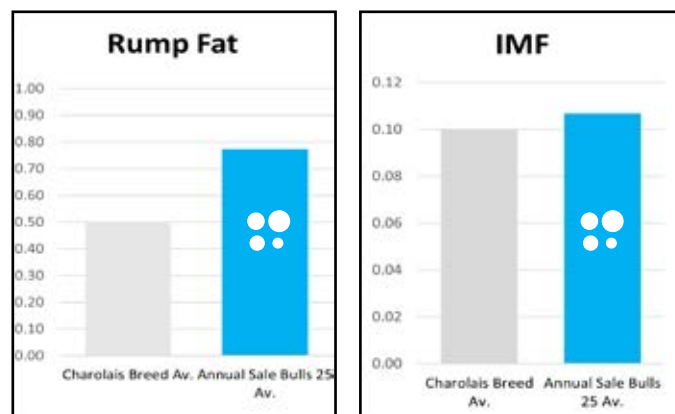

Charolais Genetic Disorders:

Similar to other breeds of cattle, Charolais too have known genetic conditions. The two in which we test for in Australia are;

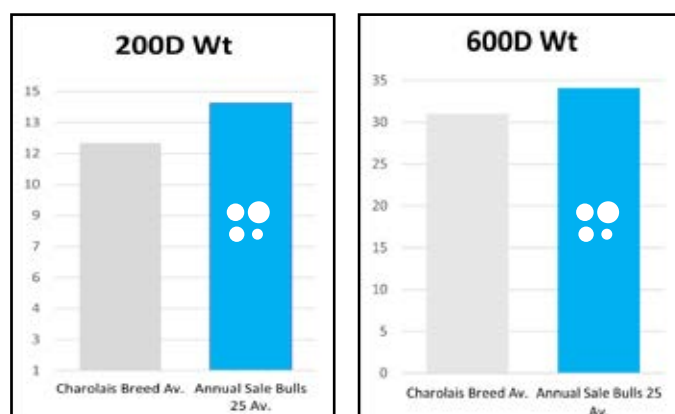

- 1) Myophosphorylase Deficiency (MYO), if affected, prevents an animals ability to mobilise glucose and results in loss of muscle function & exercise intolerance; and
- 2) Progressive Ataxia (BPA), a neurodegenerative disease of the central nervous system which if affected, results in an animals inability to stand.

An animal can be an unaffected carrier and live a normal life, but if bred to another carrier can produce affected offspring. Our sale bulls are tested for these disorders and any carriers are identified on the Charolais Australia website as well as included within the individual lot commentary. As they are recessive conditions, they shouldn't be of concern to our cross breeders, however we wouldn't recommend to our purebred Charolais clients.

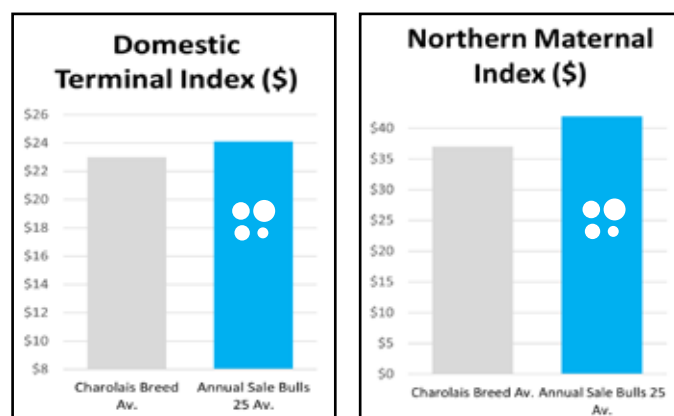

CARCASE

PERFORMANCE

PROFITABILITY

CHAROLAIS REFERENCE SIRES

PALGROVE RED ROCK (P) R/F

- We rate Red Rock as one of the best bulls we've produced, and his first drop of sons has confirmed that reputation.
- He's medium framed, thick butted, sound footed, with the natural balance and constitution essential in a top-end breeding bull.
- A 'middle man' in terms of performance data - no extremes, but when you have breeding consistency and structural correctness, performance data down the middle is more than acceptable.
- Feature Lots: 6, 11, 16, 25, 41, 45, 46, 54, 97.

PALGROVE RAFFA (PP)

- Homozygous Polled - Raffa is a bull with a real sires presence. We love the combination of butt shape, carcase and softness with a wonderful skin.
- High growth sire, who weighed in the top % of his contemporary at both 200D, 400D.
- Sold for \$80,000 in 2022
- Represented by 4 bulls: 10, 31, 22, 100.

ELDERS HOULIO (P)

- Palgrove owns the exclusive Australian rights.
- He's proven to be a moderate Birth Weight option that will maintain the stoutness in his progeny. His dam is a consistent producing donor female in the Elders program with a picture-perfect udder.
- A bull that we selected to add strong maternal traits to our herd.
- Feature lots: 38, 47, 49, 83, 87.

CHAROLAIS REFERENCE SIRES

PALGROVE ROCKERFELLA (PP)

- First drop of sons to sell – he was sold in 2022 at our record-breaking sale for \$100,000.
- Homozygous polled – he's added the softness, fleshing, strength of head, and breed type we were aiming for. He's a trait leader for Weaning Weight.
- Across this draft, you'll notice the extra strength of head, bone, and overall substance in his progeny.
- Feature Lots: 2, 7, 8, 13, 20, 22, 30.

PALGROVE LANDMARK (P)

- One of the breeds superstars – We believe this year he has produced two of the best individuals he has ever breed in lots 3 & 4.
- He has now surpassed \$1.22 million in progeny sales, topping at \$80,000 and with 17 sons selling for \$20,000 or more.
- Older bull with strong accuracy in his EBV's he ranks in the top percentiles for Growth and IMF% (Top 2%) with a Domestic Terminal Index in the top 20%.
- Feature Lots: 3, 4, 5, 23, 51, 79

LOT 1

PALGROVE UNASSUMING (P) ^{PV}

D: PALGROVE FLAXEN P2032E (P)

D: PALGROVE FLAXEN L298E

Following in his father's footsteps, this young sire takes Lot 1 honours and proudly leads out the 2025 Palgrove sale team.

He is a standout example of the modern Charolais bull—boasting strong doing ability, a moderate frame, impressive thickness, added softness, and an excellent skin type.

Backed by generations of proven performance, his pedigree blends the New Zealand influence of Holster and Oatley with some of our top-end sires including Kudos, Hombre, and Mojo.

His phenotype is matched by elite performance data, offering the ideal combination of calving ease and high early growth.

D: PALGROVE AVA C947B (P) R/F

Underbelly is the first of an exceptional line of Rockerfella sons to be offered at auction—Rockerfella himself sold for \$100,000 in 2021.

You'll notice a consistent pattern in the Rockerfella progeny: deep-bodied, easy-fleshing cattle with extra bone, softness, and strong constitution.

Underbelly's EBVs reinforce his commercial value—offering fast early growth ideal for hitting premium markets, while also producing medium-framed, efficient females. He ranks in the top 10% for Fat Cover and Scrotal Size, with strong positive figures for Eye Muscle Area (EMA) and the Northern Maternal \$Index.

A bull we hold in high regard.

Semen retained.

D: PALGROVE FESTOON H608E

Underdog is the first of three Landmark ET sons in a row—each bred with precision and backed by strong donor female lines. Simply put, we can't make them any better.

His dam hails from the highly regarded Festoon female line, sired by the renowned cow-maker Hallmark.

Underdog has stood out among his contemporaries for his exceptional softness, body volume, depth, structural integrity, and undeniable sire appeal—he's one of the best we've ever produced.

His sire Landmark has now surpassed \$1.22 million in progeny sales, topping at \$80,000, with over 17 sons selling for \$20,000 or more.

We believe Underdog will emerge as a leading sire of the next generation in the Charolais breed.

S: PALGROVE MARCELLE (P)

D: PALGROVE FLARE Q1130 (P) R/F

D: PALGROVE FLARE M1135E (P) R/F

One of our favourites from birth, this standout bull was used and collected as a yearling in both our AI and ET programs.

His dam has a picture-perfect udder and comes from one of our original and most renowned female lines—Flare. His maternal granddam also produced Flare R163E, who sold at 12 months for \$24,000. In last year's sale, she had four sons top at \$50,000, averaging \$30,000.

He's as long as a train, thick through the hindquarter, strong over the top, and structurally hard to fault, all wrapped up in a homozygous polled package with a commanding sire presence.

His EBV data is solid and balanced, without extremes. He ranks in the top 3% of the breed for IMF%, a rare achievement for a bull with this much power and presence. At just 13 months, he weighed 614kg, scanned an EMA of 114 cm, and recorded an IMF of 5.1%.

Homozygous Polled. Semen Retained.

D: PALGROVE FESTOON L377E (P)

D: PALGROVE FESTOON H608E

Full brother to Lot 3, this bull is a testament to the strength of his outstanding donor dam. When a cow can consistently produce full flush siblings that are so true to type, you know you're working with one of the best—and that's exactly why she ranks at the top of our herd.

He's as long as a train, with plenty of stretch, thickness across the top, and free, easy movement. He's the kind of bull you can see continuing to power on and fill out with time.

His EBVs reflect high positive growth, excellent scrotal size, and strong fat cover—all valuable traits for both stud and commercial programs.

You could confidently select this bull on pedigree alone, combining some of the breed's most proven sires: Landmark, Hallmark, Heritage, Blitz, and Charm.

An easy bull to recommend—whether for a stud or commercial operation, he'll move your program forward with confidence.

In this year's draft, our breeding direction is clear—adding depth of body, fleshing, and softness—through sires like Rockerfella, Red Rock, and Landmark. This Rockerfella son is a prime example of that approach.

His dam has produced 4 calves in 4 years, with a DCI of 378—a proven and consistent female.

He's a mid-maturity bull with positive Calving Ease EBVs and strong maternal traits, including Scrotal Size in the top 2%, along with positive Milk, Fat Cover, and a solid Northern Maternal Index.

With a pedigree that blends maternal strength and performance, he's the ideal choice if you're looking to soften up your herd and add fleshing, substance, and body depth.

Another easy-fleshing, deep-sided Rockerfella son, Unwrapped has the butt shape and bone we consistently aim to breed.

From paddock to plate, our focus is on producing efficient cattle that add value throughout the supply chain. Bulls like Unwrapped embody this breeding objective, delivering versatility whether you're finishing on grass or grain.

His dam has an impeccable calving record: 11 calves in 11 years with a 366-day DCI, and she's backing up again this spring—true breeding reliability.

Whether for stud or commercial use, Unwrapped has value to add. He's versatile in join options, suited to southern British or Euro-based herds, and equally effective over Bos Indicus females in the north.

Top-End Young Sire – Performance Backed by Pedigree

This homozygous polled bull combines elite data, constitution, and proven genetics. Sired by Showbiz, who was used as a yearling and brings calving ease without sacrificing growth—true to the Oatley program.

He boasts an exceptional EBV profile, ranking in the top 1% for Domestic Terminal Index and Carcase Weight, with positive calving ease and strong growth across all stages.

Long-bodied with great hip shape and carcase expression, he's one of the youngest in the two-year-old group—a standout prospect with the data and look to match.

Homozygous Polled.

Another classic Rockerfella son – soft, deep-sided, with the extra skin and fleshing we value so highly in our program.

His dam has delivered 5 calves in 5 years with a DCI of 377, and produced a son that sold for \$26,000 in last year's sale.

A pedigree stacked with maternal strength and proven performance – Calibre, Legacy, Holster, Hombre, Bluegrass D55, and Next Gen all feature prominently.

He's a strong-boned, growthy type who will add fast early weight to his calves, helping them hit those heavier weight export markets with ease.

The first son we've offered by ANC Q Pac – a sire we used selectively in our ET program with limited semen.

His dam is a highly regarded donor cow known for her flawless udder. With 10 recorded progeny, she continues to deliver, with two flush sons averaging \$14,000 in last year's sale.

He brings strong commercial appeal – ideal for lifting carcase, yield, and weight-for-age, particularly over Bos Indicus-influenced females.

Sired by a standout bull we used as a yearling – himself by LT Vista, an imported sire used extensively in our heifer AI programs.

His dam has delivered 6 calves in 6 years with a DCI of 383. One of her sons has been retained for use in our commercial herd – a strong endorsement of her breeding value.

EBVs highlight high positive growth, with Weaning Weight in the top 20%, and positive Carcase and Fat Cover also in the top 20% – backing his ability to sire calves that finish well and efficiently.

A strong-boned, deep-flanked, easy-fleshing type – ideal for adding finishing ability to progeny whether you're targeting grass or grain markets.

The first of the Risky Business sons to be offered – and they've lived up to the hype.

We selected him to bring in sleek skins, boost scrotal size, and enhance carcase quality. He's a Trait Leader for both 400- and 600-Day Growth and ranks in the top 1% of the breed for Milk and IMF%, as well as the top 5% for Carcase Weight and EMA.

Unify takes it a step further. He scanned a massive 6.2% IMF with an EMA of 102 cm at just 11 months of age off pasture.

An easy bull to recommend – efficient, easy doing, and ideal for improving carcase quality while adding maternal strength if you're looking to retain females.

Another 'keg on legs' – powerful type with top-end performance, backed by one of our leading donor females.

His dam is a rising 5-year-old with 13 progeny recorded. She's already produced a 12-month-old daughter that sold for \$18,000, and sons to the same figure. A maternal brother by Landmark sells as Lot 23.

His EBVs rank him in the top 2% for both \$Indexes, combining high positive Growth and Carcase traits with IMF% in the top 15%—a rare and valuable mix.

An ideal bull to add carcase, yield, and weight-for-age. His progeny will slot seamlessly into either the domestic or export feeder market.

D: PALGROVE REFINE L1350E

D: PALGROVE REFINE G681E

A proper beef bull – sleek-skinned, well-made, and backed by a top-shelf pedigree.

A full flush brother has been retained, which speaks volumes about the quality in this mating.

His dam is a standout donor female with 12 progeny recorded, including a son that topped the yearling section of our 2022 sale, selling for \$90,000 to Rosedale Charolais.

He offers high positive Growth and Carcase traits, with his Northern Maternal Index ranked in the top 12% of the breed.

Plenty to back your judgement on this impressive young sire.

Possibly the most powerful Houlio son we've bred to date – with a full flush brother retained in our program, backing the strength of this mating.

Like the previous lot, he's the result of a carefully planned ET mating, and it's no coincidence both dams are Calibre daughters.

His dam was a long-term contributor, remaining in the herd until 14 years of age, with sons selling to \$46,000.

A heavy carcase bull with a great skin type – he carries stud sire potential and is ideally suited to improving growth, yield, and carcase shape in any serious breeding program.

2024 CHAROLAIS YOUTH CAMP

Palgrove was proud to support the 2024 Charolais Youth Camp, continuing our commitment to encouraging and empowering the next generation of cattle breeders. Palgrove staff Sophie Halliday and Oscar Goulding attended the camp, offering displaying their passion for seedstock and helping mentor younger participants across the weekend.

As part of our contribution, Palgrove also donated a registered Charolais heifer to the most promising young breeder at the event—the 2024 prize was awarded to Gabriella Stokes. We look forward to following her progress and seeing how this heifer supports her future in the seedstock industry.

Investing in young talent is investing in the future of the breed—and we're excited to be part of it.

Rank		20%										

The youngest bull in the entire draft, yet he brings a wealth of maternal strength and breeding potential. A distant double cross of Bluegrass D55, combined with the fact that his dam's yearling son sold for \$20,000 last year, highlights the maternal strength in his pedigree.

He carries the typical style we expect from Red Rock progeny—medium framed, smooth muscled, super soft, with natural balance and constitution built in.

An ideal choice for breeders wanting to add softness and fleshing or to build a beautiful line of replacement females.

This bull's pedigree brings together some of the breed's most proven maternal and performance genetics. Sired by a Manhattan son out of a Heritage daughter, he represents a powerful blend of structure, growth, and carcass quality.

His dam has a proven track record, producing 5 calves in 5 years with an impressive Days to Calving Index (DCI) of 373.

Performance data indicates that his progeny are expected to grow out to heavier weights with ease and finish efficiently. He ranks in the top 10% for IMF% and sits in the top 20% EMA with positive fat cover, making him ideal for balanced carcass traits.

A well-balanced Houlio son offering a low birth weight option in a homozygous polled package.

His calving ease credentials are impressive, with Gestation Length in the top 10% and Birth Weight in the top 30%. He brings a rare combination of muscle and marbling, with EMA and IMF% both ranking in the top 20%.

A long-bodied bull with a strong topline, big scrotal, and thick hindquarter, he adds real substance and shape.

With his softness and carcase quality, he provides versatility in joinings – equally suited to Bos Indicus or Bos Taurus females.

Homozygous Polled. BPA Carrier.

His sire Landmark has now surpassed \$1.22 million in progeny sales, with a top price of \$80,000.

This bull is so typical of the Landmark type – long-bodied, deep-ribbed, and carrying a soft, supple skin that speaks to his easy-doing nature.

He's backed by a strong, well-rounded pedigree, combining Nullabor, Kudos, and Gridmaker 2W on the bottom side, with Bluegrass D55, Heritage, and Landmark on the top.

We're genuinely excited to offer bulls of this quality and type late in the sale – a real opportunity not to be overlooked.

Mark him high on your list if you're chasing a low-birth-weight option that doesn't compromise on growth or finishing ability.

His sire, Superintendent, was retained for his exceptional combination of calving ease, superior growth traits, and strong maternal pedigree. Unfortunately, an injury limited his use, and only a small number of calves were produced.

His EBVs reinforce the maternal quality in his background, with a top 10% ranking for the Northern Maternal Index. He offers a balanced profile of calving ease, growth, and positive Fat Cover and IMF%.

A medium-framed, thick-set, efficient type with high positive Index values — this bull is well-suited to a range of markets.

His dam has an outstanding fertility record, calving at two and producing 9 calves in 9 years, with a perfect 364-DCI.

He boasts a strong, balanced EBV profile: moderate calving ease, positive 200, 400, and 600-day growth, low mature cow weight, and positive Carcase and Fat Cover traits.

We love offering these well-rounded, balanced bulls—the kind that breed fertile, functional replacement females while still delivering the performance needed to add value throughout the supply chain.

ULTRASELECT

PALGROVE

Introducing UltraSelect – The latest Ultrablack Analysis by Angus Australia

What is UltraSelect?

Palgrove have been working with Angus Australia to determine a more robust genetic evaluation for Ultrablack cattle.

UltraSelect is a collaborative genetic evaluation initiative conducted in partnership with International Brangus Breeders Association (IBBA) and Angus Australia. It includes data from Australia and the United States to produce Estimated Breeding Values (EBVs) and is available to Angus Australia members recording animals in the MBR system.

The linkage of pedigrees through Angus MBR and IBBA provides a larger reference population of genomic records, which will significantly enhance the accuracy of our EBV data and assist you in making breeding decisions.

Traits Analysed

This analysis includes a similar suite of EBV's currently available, with the addition of Heifer Pregnancy (HP). We are currently working with Angus Australia to enhance this further and expect more fertility traits and indexes to be captured in the future.

For a full explanation of the traits analysed follow the following QR code

MORE INFO ON
TRAITS ANALYSED
SCAN ME

Indexes

UltraSelect provides two Indexes, which are bio-economic indexes consisting of 6 traits each, selected and weighted on heritability and economic importance per production system (includes traits in no specific order);

Fertility Index (FI)

A selection tool aimed at a self-replacing breeding operation.

Traits: Milk, Fat, Scrotal Circumference, Mature Cow Weight, Heifer Pregnancy, Number of calves (note; this trait is not published in UltraSelect yet, but is currently included in the index).

Terminal Index (TI)

A selection tool aimed for a terminal, feedlot finishing system.

Traits: Birth Weight, Weaning Weight, Yearling Weight, Milk, Rib Eye Area (i.e. Eye Muscle Area), Fat & Intramuscular Fat (IMF).

ULTRASELECT EBV Averages (2023 Drop)

ULTRA SELECT	Birth Weight	Weaning Weight	Yearling Weight	Mature Cow Weight	Milk	Heifer Pregnancy	Scrotal Size	Ribeye Area	Fat Thickness	IMF	Fertility Index	Terminal Index
EBV	0.4	4	18	33	1	0.9	3.2	0.45	0.3	6.2	1.08	1.81

* Breed average and percentile bands represent the distribution of EBVs across the 2022 drop Angus and Angus-influenced animals analysed in the Aug 2024 genetic evaluation

How do I access it?

Instead of looking up animals in the generic Animal Database in Angus Australia, utilise the tab Angus Select, and scroll down to 'UltraSelect', search the Society Ident as per usual.

ULTRABLACK REFERENCE SIRES

PALGROVE REVOLUTION (P)

- We considered Revolution to be the 'complete package' when he sold in 2022 for and Australian record at the time of \$70,000.
- Phenotypically Revolution was hard to fault – built in natural balance and constitution and plenty of butt shape.
- Revolution, has 167 progeny recorded and ranks in the top 1% for growth, EMA, IMF%, and Terminal Index — proven performance across key economic traits
- 11 sons sell in this years sale, with feature lots at 107, 113, 115 & 125.

ULTRABLACK REFERENCE SIRES

PALGROVE QUALITY TIME (P) ET

- Imported embryo that was retained by Palgrove and has over 265 progeny on the ground.
- He adds plenty of weight for age, strong carcass traits and great skins. He's deep and square and is producing easy fleshing cattle with a touch more bone and plenty of performance.
- Has over 320 progeny recorded in our Program and has had 38 sons sell at Auction grossing \$841,000 and averaging \$22,131.
- His consistency is confirmed, represented by 8 sons in this year's sale, including Lots 118, 153, 157.

PALGROVE ROYSTON (P)

- Upstanding sire that was used as a yearling before selling in 2022 for \$50,000.
- He has a touch more performance with stacks of volume and capacity, yet moves like a cat. He has plenty of length and bone, big scrotal and ideal sheath design.
- A bull we have used to add extra performance and frame – structurally he is faultless
- 5 sons are offered in this year's annual sale at lots 104, 110, 126, 136 and 143.

PALGROVE RINGLEADER (P)

- Ringleader sold for \$50,000 in 2022. He has a top shelf pedigree that combines the best of Australian & US genetics – Foundation, Csonka and the Chadwick Downs Blue Bird cow family.
- He's deep ribbed; thick butted; with plenty of bone and easy fleshing.
- Used in both our Brangus and Ultrablack program he has sons feature at Lots 103, 117 and 121.

S: BWCC CROSS FIT

S: DMR CROSSROADS

D: MS DMR CORONADO

S: ARDROSSAN ADMIRAL

D: TWYNAM GODDESS G003

D: TWYNAM B455

Sleek-skinned Cross Road son backed by elite Angus genetics.

Out of a top Angus donor with 23 recorded progeny, she's a daughter of the renowned Ardrossan Admiral A2, who has over 4,900 registered progeny. Her sons have sold to \$44,000, with Rush Hour retained in our herd.

Leaning towards the Bos Indicus type, he's ideal for programs aiming to improve sheath design, maintain a sleek coat, and maintain the Bos Indicus hardiness and doing ability.

Stud sire potential — Semen retained.

D: PALGROVE GR MAYA R735

D: PALGROVE GR MAYA P1045

It's always interesting when you come across a bull with standout quality — and then see he's backed by two strong donor cows on both sides of the pedigree.

Upturn is one of those bulls. Every time he catches your eye in the paddock, it's thanks to his natural balance, length, and butt shape. He carries impressive carcass expression while still showing the finishing ability of his grandsire, Networkh. This is reflected in his data, with Fat Cover and IMF% both ranking in the top 10%.

His progeny will retain his sleek skin and Bos Indicus features, with the ability to grow into heavier weight specs and finish efficiently on either grass or grain.

Homozygous Polled, Homozygous Black.

D: GLENROY HARPER N197

Unrivalled is one of our personal favourites — a genuine sire prospect with presence and performance.

His dam has produced 6 calves in 6 years, with a DCI of 362. She boasts a flawless calving record, with both of her daughters retained in the herd. All three of her sale-aged sons have made the sale team, and her current yearling son has already been selected for use in the stud this spring.

Unrivalled has 'sire' written all over him — deep-sided, with exceptional volume and capacity. He carries impressive carcass expression combined with softness, indicated by his depth of flank.

With a strong pedigree and strong performance data, he's the type that belongs in a bull breeding program.

This second-generation UB bull boasts a strong muscle pattern and impressive carcase shape, making him an asset for breeders focused on yield and carcase performance.

His EBVs indicate low birth weight and moderate growth, paired with highly positive carcase traits, including IMF% ranking in the top 8%.

With Fertility and Terminal Indexes both ranking in the top 25%, his genetic profit potential is well-supported.

An ideal type to lift yield and carcase quality, particularly when used over Bos indicus-based herds.

It quite amazing how the Glenroy female line consistently pops up back in the pedigree of these sale bulls, they have laid a solid foundation.

His sire Royston sold in our record breaking sale in 2022 for \$50,000 – We continue to use him in AI to add extra length and frame without compromising on thickness and carcass shape.

He has a maturity pattern and performance data to suggest he will add a touch more frame to his progeny yet he still retains strong carcass shape and thickness.

Homozygous Polled, Homozygous Black.

Brangus.

Sleek skinned, heavy muscled higher content Brangus bull with an ideal sheath design.

Since weaning he has always stood out in the group for his presence and strong muscle pattern at an early age. He'd be the ideal type if you are looking to add early maturity, moderate frame and improve efficiency in your herd.

Top end performance data in the Brangus analysis - High positive Growth Carcase and Yield traits all in the top 10% with both Domestic and Export steer Index in the top 2%.

We admire these Blueprint progeny for their depth of body, carcase shape, and exceptional doing ability. Blueprint himself ranks in the top 1% for all growth traits, Heifer Pregnancy, and EMA.

The dam has a rock-solid fertility record, producing four calves in four years with a DCI of 365 days.

This bull's performance data backs up what we see on the ground - a balanced blend of carcase, fat cover, and growth. Use him to moderate frame size and inject doing ability into larger-framed females.

A super thick-set Beacon son with impressive carcase shape, fleshing, and length.

His dam has produced five calves in five years with a DCI of 368 days.

His EBVs show strong performance across all key profit-driving traits – Growth, Heifer Pregnancy, and Carcase – with a Terminal Index ranking in the top 4% of the breed.

He's a stout, powerful individual, ideal for producing progeny to target the short-fed domestic market or for adding doing ability and thickness to larger-framed cows.

Typical of what we expect from Rock Solid progeny – long and smooth with ideal sheath design, a deep, square hindquarter, and a touch more Bos Indicus influence in his overall appeal.

His performance data shows strong Growth and Milk traits, with a Terminal Index in the top 21%. His doing ability is well supported by rankings in the top 3% for Fat Thickness and top 13% for IMF.

A versatile sire suited to tougher environments, he offers flexibility across both Domestic and Export markets – giving you the freedom to target the most profitable option at the time.

Another Quality Time son in a similar mold to the previous lot. Quality Time over the Anvil female line is a combination that has clicked so well in the past.

When you analyse the Quality Time progeny you would assume him to be more of a Terminal type sire due to his explosive growth and strong muscle pattern, yet he ranks at the top 1% of the breed for his Fertility Index and Heifer Pregnancy.

He's a bull that would improve carcase shape and yield over Bos Indicus females with progeny destined to fit the heavy feeder market.

Homozygous Polled, Homozygous Black.

Brangus.

A higher content Brangus bull that's long and smooth in his pattern, with a strong head and plenty of butt shape.

This pedigree brings strong US influence, combining Brickhouse over a Business Line imported embryo. He carries the length and extension from Business Line, paired with the carcase shape and ideal sheath design typical of Brickhouse.

Born at 41kg, this is a moderate birth weight bull we'd recommend for heifer programs where performance is still a priority.

Heterozygous Polled, Homozygous Black.

Sired by Renaissance, a Networkh son who sold for \$60,000 in our record-breaking 2022 sale. This bull carries the trademark carcase shape and finishing ability that Networkh consistently stamped on his progeny. Networkh has had 23 sons sell at auction, topping at \$60,000 and averaging \$20,500.

He's moderate framed, super thick, with a strong top, good sheath design, and plenty of muscle expression. In his fleshing and head, he leans more toward the Bos Indicus type.

A bull to add early maturity and finish to your program – his pattern suggests his progeny will suit the early finishing Domestic market.

His sire Quantum was the high selling bull in 2021 at \$35,000. He was a medium framed bull sire by CRC Guardian, had a sleek skin and at the day of sale recorded a huge EMA of 150 square centimeters.

There is plenty of style and presence in this young bull – Strong headed, great skin, deep flanked he is just made right.

We are proud of the depth in our Ultrablack program to be able to offer bulls of this quality late in the sale.

LIVESTOCK AUCTION TERMS AND CONDITIONS OF SALE

PALGROVE

1. The highest bidder shall, subject to Condition 2, be the purchaser provided that the vendor reserves the right to bid either by himself or through his agent or auctioneer and should any dispute arise among the bidders for any lot, during or immediately after sale of the lot, it shall be settled at the auctioneer's absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the auctioneer and no bid shall be retracted.

2. The sale will be conducted on a "Sale" or "no Sale" basis whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bid by the vendor who will immediately after the fall of the hammer declare "Sale" or "no Sale". Should the vendor reject the bid of the highest bidder such bidder will have the right of first refusal of the lot at the vendor's nominated price for one hour after the lot has been passed out of the ring on the terms and Conditions herein set forth in so far as they shall apply.

(a) All Sales will be conducted on the basis that the bid price will be exclusive of Goods & Services tax (GST). GST will be added to the bid price after the fall of the hammer for those sales subject to GST.

3. The details of the purchaser, the purchase price and the lot sold as recorded by the sale clerk for and on behalf of the auctioneer shall be equally binding on both purchaser and vendor.

4. The auctioneer expressly reserves the right, without giving any reason therefore, to:-

(a) Refuse to acknowledge any bid;

(b) Withdraw any lot or lots before or during the sale;

(c) Exclude any person from the auction venue should it think fit.

5. Each lot in all cases shall be at the risk and expense of the purchaser, upon acceptance of his bid by the vendor or upon acceptance of the highest bidder's offer by the vendor whichever shall be the earlier.

6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these Conditions as to pedigree, sex, age, breeding condition or otherwise howsoever, and no guarantee, warranty or condition whatsoever shall be implied from any affirmation made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the vendor or by the auctioneer acting as agent for the vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee warranty or condition whatsoever was given or implied.

7. In the event of any dispute in respect to the sale of any lot:-

(i) The purchaser shall nevertheless be obliged to pay to the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these terms and conditions.

(ii) The vendor and the purchaser shall resolve the dispute between themselves;

(iii) The auctioneer shall have no liability or responsibility in regard to the dispute; and

(iv) no lot shall be returned to the auctioneer and the purchaser shall indemnify the auctioneer for all costs, expenses and damages which the auctioneer is put to or incurs by reason of the purchaser so doing.

8. The name of the vendor for whom the auctioneer acts is acknowledged to have been furnished to purchasers prior to sale and further particulars will in all cases be furnished to a purchaser if required. In the case of any dispute the remedy of the purchaser shall be against the vendor only and in no case or under any circumstances against the auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.

9. (a) PAYMENT - Unless prior credit arrangements have been made in writing with the auctioneer the full purchase price for each lot shall be due and payable to the auctioneer in cash upon acceptance of the highest bid or the highest bidder's offer by the vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the purchaser until the full purchase price and all cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated, and until property shall pass, the purchaser shall hold such lot as bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the auctioneer reserves the right to:-

(i) Rescind the contract on behalf of the vendor and repossess and resell any lot;

(ii) Recover from the purchaser interest upon the purchase price at a rate per annum which aggregates the 90 day Bill Rate plus two percentum. For the purposes of this condition "the 90 day Bill Rate" is the rate published regularly in the Australian Financial Review, expressed as a percentage per annum. If at any time the Financial Review ceases to publish a 90 day Bill Rate, the auctioneer shall determine and advise the purchaser of the interest rate to apply for the purpose of this condition.

(b) The auctioneer is selling as the del credere agent of the vendor and the full purchase price of any lot sold shall be payable by the purchaser to the auctioneer and be fully recoverable by the auctioneer in its own name.

10. If the purchaser shall neglect or fail to comply with any of the within conditions, any lot purchased by him may be immediately resold by public auction or private contract, with or without notice, at the risk of the former purchaser who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.

11. Any vendor or purchaser removing the sale number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damage should the lot be wrongly delivered.

12. The purchasers, if more than one, shall be jointly and severally bound by these Terms and Conditions, and shall jointly and severally carry out and perform same.

13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that person may be acting on behalf of another party, either disclosed or undisclosed to the vendor or the auctioneer, provided however, that this Condition shall not in any way negate the vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.

14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such service will be at the purchaser's risk and expense.

15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.

16. (a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trade Practices Act or any applicable State legislation which cannot be contractually excluded and excepting conditions and warranties expressly contained in these Terms and Conditions of Sale, any express or implied condition, statement or warranty, statutory or otherwise, is hereby excluded.

The auctioneer is not liable in respect of any error, misdescription or omission in any particulars appearing or stated regarding the descriptions or pedigrees of any lot offered for sale and no such error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.

(b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot, such tests to be undertaken at the purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any

purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to or remain with the vendor.

17. GUARANTEES OF FERTILITY:-

17.1 BULLS. All bulls are guaranteed breeders and to so prove within six months of the date of sale or by reaching the age of 30 months whichever date shall be the later.

17.3 Claims under Clause 17.1 guarantees of fertility shall be made to the vendor within six months from the date of sale or prior to the animal entering a quarantine area other than on the vendor's property.

17.3.1 All claims must be accompanied by a veterinary certificate which shall clearly identify the basis of the claim.

17.3.2 Infertility resulting from injury or disease occurring after the sale of the animal shall not be covered by this guarantee.

17.3.3 The vendor retains the right to have the animal placed on a property nominated by him or returned to his own property for further assessment of fertility for a period not exceeding six months. In the event of the animal being proven fertile within the period, the costs incurred shall be borne by the purchaser. In the event of the animal not being proven fertile within the period the costs incurred shall be borne by the vendor.

17.4 LIABILITY OF A VENDOR. Except for costs defined elsewhere in the conditions of sale, the liability of a vendor in respect of claims relating to fertility shall not exceed the purchase price of the animal(s) or to provide mutually agreed upon replacement animals.

17.5 REFUNDS. In the event of a claim being substantiated and the purchase price being refunded, the animal/s shall automatically become the property of the vendor and be returned to him or disposed of according to his instructions at his expense.

17.6 This guarantee shall be voided by the purchaser if -

(a) The animal is returned to the vendor -

(i) in poor physical condition or with any injury;

(ii) tests carried out on behalf of the vendor within fourteen days of such return proved positive to any diseases which may affect the animal's fertility or ability to breed naturally;

(b) the purchaser has collected and stored semen from a bull or embryos from a female.

17.7 In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser and the auctioneer, while he will use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these Terms and Conditions.

18. (a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.

(b) If any vendor brings to the sale premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses, or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right, at its absolute discretion, to exclude from the sale, or put out of the sale venue or dispose of, any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.

19. DELIVERY - Except at the discretion of the auctioneer no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.

20. In these Conditions:-

(a) References to "Auctioneer" shall be taken to mean as the context so admits, the selling agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot;

(b) "Purchaser" shall have the meaning ascribed to it in Condition 1;

(c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm;

(d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.

IMPORTANT NOTICE

The selling agent, its members, subsidiary or related corporations, officers, agents, and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy. All persons who attend the sale do so entirely at their risk and the selling agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.

ACCURACY

Every care has been taken in compiling this catalogue to ensure accuracy of information supplied, but no responsibility is accepted for any errors which may occur. You are encouraged to seek independent verification of any information contained in this catalogue before relying on such information.

BREEDPLAN

Breedplan data is reviewed on a monthly basis and may vary from printing to sale day. Changes to data may occur and alter significantly without notification. We have no control over changes made to ABRI.

ENTRY TO PALGROVE

People entering upon the 'Glen Willga' property for any purpose whatsoever including attendance at the cattle auction do so at their own risk.

We are not liable to you for any personal injury or death suffered by you or for theft, loss or damage to any property caused or contributed to by us or any other person whether caused or contributed to or by negligence, deliberate act or unlawful conduct. "We" or "us" or "our" refer to the owners, their employees, contractors and agents and each of them.

Entry to the property is by invitation for the purpose of inspection or purchase of the sale cattle on offer. Palgrove may request any member of the public to leave the property at any time without warning. Palgrove reserves the right to ask for assistance from authorities should that request be ignored.

Power of Pedigree on Display at 2025 Paddock to Palate

Palgrove-bred cattle dominate Weight Gain results in both HGP and HGP-Free classes

Palgrove's commitment to commercially relevant, performance-driven genetics has once again been reinforced in the 2025 RNA Paddock to Palate Competition, with our cattle delivering exceptional results in the Weight Gain phase across both HGP and HGP-free export classes.

The **Power of Pedigree**—the depth, consistency, and long-term focus of the Palgrove breeding program—was clearly evident, with all six Palgrove pens finishing inside the top 10. These results are more than just statistics; they're a demonstration of how elite genetics translate to real-world performance and profitability for commercial producers.

Champion – Highest Individual Weight Gain: Ultrablack

Importantly, **five of the top eight pens** in the HGP-free class were either bred by Palgrove or sired by Palgrove bulls—further reinforcing the consistency, adaptability, and market relevance of our genetics.

“These results are another example of the proof behind our program,” said Ben Noller, co-principal of Palgrove. “Our clients aren’t just buying a name—they’re investing in decades of genetic progress backed by real data and commercial results.”

Competitions like the RNA Paddock to Palate provide a critical opportunity to benchmark genetic performance against some of the best cattle in the country.

George Stacey, Michael Walker and Zach Duff

Class 37A – 100 Day HGP Export (Pen Results)

- **1st Place – Highest Individual Weight Gain:** *Ultrablack at 3.42 kg/day*
- **3rd Place – Ultrablack** (ADG: 2.695 kg/day)
- **7th Place – Charolais X** (ADG: 2.583 kg/day)
- **8th Place – Charolais X** (ADG: 2.547 kg/day)

Class 40A – 100 Day HGP-Free Export (Pen Results)

- **2nd Place – Charolais X** (ADG: 2.247 kg/day)
- **8th Place – Charolais X** (ADG: 2.037 kg/day)
- **9th Place – Charolais X** (ADG: 2.033 kg/day)

They also validate the breeding decisions made over many years—decisions that prioritise weight gain, carcass quality, structural integrity, and fertility in real production systems.

Palgrove has now achieved six overall Paddock to Palate wins in the last seven years, and while the final 2025 overall results are yet to be revealed, we're incredibly proud of this year's performance so far.

Stay tuned – we'll be sharing more about the **overall competition results** on our social media channels following the official presentation night on August 7.

Power of Pedigree. Proof of Profit. It's more than a motto—it's a measurable result.
